## 4. SURVEY - COMMUNITY CONSULTATION

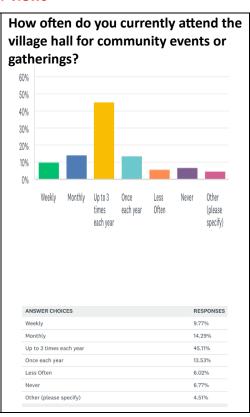

An important opinion survey was carried out in May 2024. Over 150 villagers responded. This has helped shape understanding of what people want. From this the Helpston & Etton Village Hall committee have been able to continue to develop an outline vision for a future new hall and guide criteria for location sites. We learnt that

- Villagers would like to use a village hall more and are put off by the current village hall.
- There is a very strong will to replace the village hall with a new, bigger and better resourced building.
- There are lots of uses envisaged

## New Village Hall survey (May 2024)...... your views

## **CHANGE IS AGREED**

- Over 85% of villagers want a new village hall
- The existing one is past it
- There are lots of potential usages

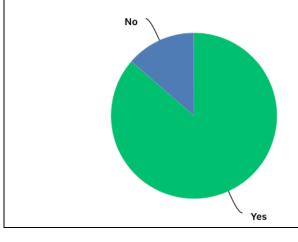

Please rate the village hall's overall suitability for community activities
